America's first name in **VINE SEEDS**

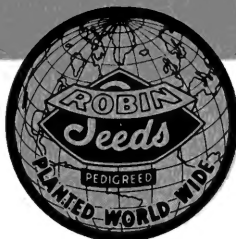

.... a brief word

For three generations our family has specialized in growing fine quality VINE-SEEDS for the wholesale Seed Trade of America and the World. Through this trade, today sees our specialized strains used in nearly every agricultural area of the world in which Vinesseeds will thrive.

Because of the ease with which Vinesseeds will cross one with another, they require a degree of close and constant supervision that is unusual in the general run of seed production. We feel that only a closely knit group of plant breeders and production men devoting the whole of their time to these critical species can provide the uniform and consistent quality that today's markets demand. It is with pride that I say to you that ours is such a group. And it is on this basis of close and constant supervision of our program, that we respectfully submit to you this contract pricelist covering Vineseed varieties of our growing.
